

SERIES 634

MAGNETIC V-BLOCK

**ATTENTION:
NOT HARDENED**

- ◆ Hold cylindrical workpiece for inspection and machining
- ◆ Top groove for large shafts
- ◆ Bottom grooves for small shafts
- ◆ Not suitable for steel or iron surfaces, otherwise the magnetic force will be reduced

634-067-01

634-067-01P

Individual

Code	Size(LxWxH)	For shaft range(Ød)	Magnetic force	V-grooves and back side squareness	Top and bottom, left and right parallelism
634-067-01	80x70x95mm	6-67mm	64kgf	10µm	10µm
634-067-02	100x70x95mm	6-67mm	80kgf	10µm	10µm
634-067-03	120x70x95mm	6-67mm	96kgf	10µm	10µm

* NEW Matched pair

Code	Size(LxWxH)	For shaft range(Ød)	Magnetic force	V-grooves and back side squareness	Top and bottom, left and right parallelism	Height difference of a matched pair
634-067-01P	80x70x95mm	6-67mm	64kgf	10µm	10µm	10µm
634-067-02P	100x70x95mm	6-67mm	80kgf	10µm	10µm	10µm
634-067-03P	120x70x95mm	6-67mm	96kgf	10µm	10µm	10µm
